Compatible Imaging Supplies ~ *What Sets Us Apart?*

MADE IN THE USA

~ 100% Satisfaction Guarantee ~ Great Monetary Savings ~ Superior Print Quality ~

THE ART AND SCIENCE OF COMPATIBLE CARTRIDGE DEVELOPMENT

INNOVATIVE TECHNOLOGIES

Laserfleet has been in the business of successfully making compatible imaging supplies since 1988 in the state of Michigan, and offers a complete line of compatible ink, toner and ribbon cartridges for printers, fax machines, and copiers. Every new product in which we develop must first undergo stringent research procedures for each individual component contained within that unit, and once research has been completed, a Matching Component System is developed for each model produced. Our state-of-the-art facility is outfitted with proprietary, computerized equipment, and is considered to be one of the most technologically advanced in the industry.

OUR IMAGING TEAM

Our manufacturing team consists of an entire line of skilled workers and technicians, all who take great pride in their professions. From our R&D Department, to our Production Technicians, to our Final Product Inspectors, everyone has an important role to perform in exuding our top quality products. All of our people are highly trained, and take their positions very seriously. In fact, each member of our staff is subject to ongoing training on a regular basis, which is necessary to keep up with the fast moving and ever changing complexities of the compatible imaging supplies industry.

RIGEROUS PRODUCT DEVELOPMENT & INTERNAL PARTS REPLACEMENT

Laserfleet replaces all internal parts within our compatible imaging supplies. We were one of the first ever companies to implement advanced R & D procedures, which then led into our brilliantly developed, matching Tri Component System! Our Tri Component System *guarantees* that each and every imaging supply we produce will work as good as, or better than its OEM counterpart, for a fraction of the cost.

QUALITY BEGINS WITH OUR STMC CERTIFICATION

Our products also come complete with an STMC Certification. STMC stands for the Standardized Test Methods Committee, and this global Committee was formed to both find and promote standardized test methods for the printer cartridge industry. Besides its own evaluation process, STMC has accepted into practice several ASTM International test methods, in addition to ISO, ISTA, and ANSI testing methods. All testing methods are used to evaluate printer toner cartridge performance, and to make it possible to evaluate a cartridge anywhere and come up with the same test results, no matter who tests it. Knowing that we put out the best products possible gives our customers a much coveted peace of mind when it comes to buying compatible imaging supplies.

Selective Users Choose Laserfleet

➤ Exercise Your Right to Choose!

Printer manufacturers don't want you to know that you have a clear alternative to their high cost brand name supplies. But you do! Laserfleet offers a complete line of imaging supplies to fit every printing need, from laser printers to faxes to inkjets. We currently have over 10,000 different compatible supplies in stock, and offer next day delivery, so it's there when you need it.

➤ Why Spend More Than You Have To?

Not only do our compatible supplies perform as well as the OEM brands do, but they do it with a much lower price tag! Through Laserfleet, you'll save up to 45% off your current supplies costs, while still maintaining higher standards. If you don't mind paying less for the same thing, then by all means ~ make the move to Laserfleet today!

➤ Choose Quality

Our supplies produce crisp, sharp text and dark, smooth graphics, each time, *every time!* Replacement components are inserted throughout the manufacturing process, and then the final product must pass our triple post-testing before they ship out to you. The end result is a superior, dependable product that provides you with the outstanding printed documents you've come to expect.

➤ Satisfaction Guaranteed

100 % Guaranteed!

All Laserfleet compatible imaging products are guaranteed to work as good or better than the OEM brands. Our cartridges have the same lifespan as their OEM counterparts, and all are guaranteed to arrive to you, 100% free of defects. In addition, all of our products come complete with a 100% Satisfaction Guarantee, or your money back! We're so confident that you will like our products that much!

Call today for your free, no obligation quotation, and see what you can start saving right now!
