

Easy Order Login Center

The Power To Take Control

Log on and Feel It For Yourself

Feel the Power and take Control over your in-house equipment inventory and supplies ordering, through our *Easy Order Login Center*. Our system is so easy to use, yet highly sophisticated enough to track any location's printers and who uses which supplies, all while retaining your own private, easy to use catalog and history of every supply you've ordered in the past and will ever need to order in the future!

Features Include

- **One Click Desktop Ordering** ~ No usernames or passwords to remember.
- **Customized Product Catalog Creation** ~ No more memorizing the products you need to order. We do all the work for you!
- **Single Sites or Multiple Sites with Satellite Accounts** ~ Have more than one location? Not a problem with our Easy Order Login Center. You can order and track products, and trace expenditures, either for 1 office or for 100!
- **Master Overseer Control** ~ You hold the key to all ordering and spending activities for every department.
- **Accountability with our Unique "Delivery by Department" Feature** ~ Provides you the ability to breakdown exactly where each toner cartridge went to, who used it, and how many, over a course of any given time span.
- **And much, much more!**

Customers with Only a Single Location

- The location is given a professionally encrypted and hacker-proof login.
- View all current and past ordering histories.
- Track spending by month, quarter and year.
- Generate purchasing and usage reports.
- Create your own personalized products catalog, listing only the products that you or your organization orders.
- All private catalogs are customizable, allowing you to add or subtract

Customers with Multiple Sites and Satellite Locations

- All sites are given professionally encrypted and hacker-proof logins.
- View all current and past order histories for all satellite accounts.
- Track spending by month, quarter and year for all satellite locations.
- Generate purchasing and usage reports for all satellite locations.
- A selected individual has a master password for access to all accounts for the purpose of reviewing purchasing habits and generating reports.
- The selected individual can control which product lists their various locations are able to access.
- All private catalogs are customizable, allowing for the addition or subtraction of items as needed.
- Can add or renew purchasing orders for different locations.
- Can create, revoke or change passwords as necessary for all locations.
- Each satellite may login to their own location only, while the overseer may login to all locations.
